Self Critique

What did we do well?

1. Successfully implemented pages with links
2. Visualizations
3. Robust backend API on AWS

What did we learn?

- Frontend
  - React, JavaScript
- Backend
  - Flask, AWS, SQL

What can we do better?

1. We could have better designs of each webpage.
2. We could have a better data source for doctor pictures.
3. We could also have more media for specialties.

Other Critique

Costly Commute

What did they do well?

1. Splash page
2. Interesting data about cities, commutes, and homes
3. Comparing instances is an interesting idea
4. Lot of images for each city

What did we learn from their website?

1. Information about commutes in various cities
2. Wage information in different cities
   a. One visualization shows how average income and rent in a city are correlated.

What can they do better?

1. Faster load times
2. Better user interface for queries
3. Improved frontend responsiveness
